

Ms. Kimbrough

I decided to write you a letter since I have requested a meeting for over a month now.

It kind of feels like slavery around here.

You asked me to put in a app for the job Auxiliary teacher, then it took you so long to interview. I could feel that something changed. You then came up with the story that if I was given the job I would have to sub all over the school. Next you had a conversation with me that you didn't have anyone and you asked me would I be ok with staying in the position. You and I know you could have chosen for me to stay here all year if you wanted to.

Although you are a new principal you will learn that a hard working loyal employee is Golden.

I not only work hard to make sure I ^② plan for each grade level, I spend my own money to complete some lesson plans. From the very beginning I knew Mr. Jacoby didn't like me I was told he thought I was too old and underqualified for the job.

He not once has come down to offer to help. He doesn't even visit our classroom. I have been seeing him meet with Mrs. Stolz and this has been going on for about a month, around the time I seen you change. Mrs. Stolz, has told him a bunch of lies and he's been ice cold toward me since. I asked you, did the decision to hire someone for the room change because of the lie Mrs. Stolz came and told you. You told me no however I don't believe you were honest with me. I believe you allowed other people to influence you.

I love the kids is the only reason
I'm here. I showed Mr. Jacoby my
lesson plans. The work that the kids
do and lots of work on the back pack
activities. He told me it's great.

On yesterday you came and told
me you hired someone and gave them
the same auxillary position you told me
not to take.

I feel like you think you can tell
me anything and it's ok. I know you think
having a teacher's degree makes you a teacher
but it doesn't it just qualifies you as one.
Teaching, comes natural to me and I know
I'm great at it. I have been loyal and
faithful to you since I took the position.
I don't think you have been fair to me.
Being white doesn't mean you are right.

So far these reasons and a few others I am going to reduce my days after the new teacher arrives. I will no longer do long term assignments at ~~Maupin~~ ~~Parkland~~. There are many schools that would appreciate my loyalty and hard work. I never missed a day in the 3 years I have subbed.

Have a blessed Day.

Ms. Price

25. For 3 years Mr. Puckett, had this classroom with all his degree's. He never taught the kids anything. They stayed on the computer all day. No lesson plans, nothing. I asked why. I was told the only requirement was that he kept them in the room like some animals. The new thing now seems to be around Maupin is as long as you can control your class don't worry about teaching.

I'm fine and I don't need a ⁽⁵⁾ meeting now.

You may also want to know, Mr. Jacoby like a lot of other people don't care about these kids this is just a stepping stone for him to get the principal job he's going for. I know you had no idea I have seen through all you have tried to do to me.

Again have a Blessed
Day
